

Table of Contents

International MultiConference of Engineers and Computer Scientists

IMECS 2008

Preface.....	xli
Committees.....	xlii
Abstracts of Invited Lectures.....	lxi

VOLUME I

The 2008 IAENG International Conference on Artificial Intelligence and Applications

Improving the Performance of Particle Swarm Optimization with Diversive Curiosity <i>Hong Zhang, and Masumi Ishikawa.....</i>	1
Partial Meet Contraction Based On Relevance Criterion <i>Maonian Wu, Zhaohui Zhu, and Mingyi Zhang.....</i>	7
Towards Logic-Based Question Answering under Time Constraints <i>Ingo Glockner.....</i>	13
Assessing the Accuracy of Grey System Theory against Artificial Neural Network in Predicting Online Auction Closing Price <i>Deborah Lim, Patricia Anthony, Ho Chong Mun, and Ng Kah Wai.....</i>	19
CBR Applications in Combustion Control of Blast Furnace Stoves <i>SUN Jinsheng.....</i>	25
Measurement framework for aligning adaptation method with business and usage factors in e-learning <i>Houda Zouari Ounaies, Yassine Jamoussi, and Henda Ben Ghezala.....</i>	29
Designing Market Stall Layout by Agent-Based Simulation <i>Chayanit Trakulpipat, and Sukree Sinthupinyo.....</i>	35

Collaborative Decision-making in Multi-agent Systems for GIS Application	
<i>Indiramma M, and K R Anandakumar.....</i>	40
Architecture for Emotional Pedagogical Agent	
<i>Soha Arab-Khazaeli, Nasser Ghasem-Aghaee, and Caro Lucas.....</i>	44
Computational Model for Utilizing Impact of Intra-Week Seasonality and Taxes to Stock Return	
<i>Virgilijus Sakalauskas, and Dalia Kriksciuniene.....</i>	50
Feature Extraction and Signal Reconstruction of Air and Bone Conduction Voices by Independent Component Analysis	
<i>Tadahiro Azetsu, Eiji Uchino, Ryosuke Kubota, and Noriaki Suetake..</i>	55
ANN based Classification and Location of Faults in EHV Transmission Line	
<i>Pranav. D. Raval.....</i>	60
A SAT Approach for Solving The Staff Transfer Problem	
<i>S. Acharyya, and A. Bagchi.....</i>	64
A Learning System Prediction Method Using Fuzzy Regression	
<i>Rosma M. Dom, Sameem A. Kareem, Ishak. A. Razak, and Basir Abidin..</i>	69
ACO Hypercube Framework for Solving a University Course Timetabling Problem	
<i>José Miguel Rubio, Franklin Johnson, and Broderick Crawford.....</i>	73
Basic Concepts and Anatomy of Swarm Intelligence and Its Roles in Today and Future Network Centric Environments	
<i>Pooia Lalbakhsh, and Mehdi N. Fesharaki.....</i>	78
Bee Colony Algorithm for the Multidimensional Knapsack Problem	
<i>Papova Nhina Nhicolaievna, and Le Van Thanh.....</i>	84
Towards a Formalization of Combinatorial Local Search	
<i>Eric Monfroy, Frederic Saubion, Broderick Crawford, and Carlos Castro.....</i>	89

Comparative Performance of Simulated Annealing and Genetic Algorithm in Solving Nurse Scheduling Problem	
<i>S. Kundu, M. Mahato, B. Mahanty, and S. Acharyya.....</i>	96
Global Output Convergence of RNN in Menger Probabilistic Metric Space	
<i>Subhash Chandra Pandey, and Piyush Tripathi.....</i>	101
Fuzzy Control System For Controlling Traffic Lights	
<i>Shilpa Mehta.....</i>	105
A Multi-purpose Web Service for Risk Management based on Fuzzy Multi-criteria Ranking	
<i>D. Karimanzira, and TU-Ilmenau.....</i>	109
Automatic Visual Inspection of Bump in Flip Chip using Edge Detection with Genetic Algorithm	
<i>M. Fak-aim, A. Seanton, and S. Kaitwanidvilai.....</i>	115
An Integrated Approach of Support Vector Machine and Variable Neighborhood Search for Discovering Combinational Gene Signatures in Predicting Chemo-response of Osteosarcoma	
<i>K. Y Chan, H. L. Zhu, M. E. Aydin, C. C. Lau, and H. Q. Wang.....</i>	121
Evaluating Software Quality of Vendors using Fuzzy Analytic Hierarchy Process	
<i>Kevin K. F. Yuen, and Henry C. W. Lau.....</i>	126
Chaotic Binary Particle Swarm Optimization for Feature Selection using Logistic Map	
<i>Li-Yeh Chuang, Jung-Chike Li, and Cheng-Hong Yang.....</i>	131
Stability of a Class of Neural Networks	
<i>Jiemin Zhao.....</i>	137
An Evolvable Network Controller Model for Reconfigurable Network Devices	
<i>Ramtin Raji Kermani, and Fariborz Sobhan manesh.....</i>	140

The 2008 IAENG International Conference on Bioinformatics

A Hybrid Both Filter and Wrapper Feature Selection Method for Microarray Classification	
<i>Li-Yeh Chuang, Chao-Hsuan Ke, and Cheng-Hong Yang.....</i>	146
Guide to Threshold Selection for Motif Prediction Using Positional Weight Matrix	
<i>Youlian Pan, and Sieu Phan.....</i>	151
An Approximation Algorithm for Bounded Degree Closest Phylogenetic 2nd Root Problem	
<i>Swakkhar Shatabda, Atif Rahman, and Masud Hasan.....</i>	157
A Design of a Hybrid System for DNA Sequence Alignment	
<i>Heba Khaled, Hossam M. Faheem, Tayseer Hasan, and Saeed Ghoneimy... ..</i>	162
Developing a Multiagent System for Integrating Biological Data Using JADE	
<i>Faheema Maghrabi, Hossam M. Faheem, and Tayseer Hassan, and Zaki T. Fayed.....</i>	168
Eukaryotic Promoter Predication Based on Principal Component Analysis	
<i>Xiaomeng Li, Yongmei Liu, and Hong Yan.....</i>	174
Cross-SAGE: SAGE Data Mining Tool Based on Set Theory	
<i>Cheng-Hong Yang, Tsung-Mu Shih, De-Leung Gu, Hsueh-Wei Chang, and Li- Yeh Chuang.....</i>	179
Agrobacterial Plant-transforming Oncogenes: Emerging Complexity of Their Action and a Functional Parallelism with Some Animal Protooncogenes	
<i>V.P. Bulgakov, T.Y. Gorpenchenko, Y.V. Inyushkina, O.G. Koren, K.V. Kiselev, Y.N. Shkryl, and Y.N. Zhuravlev.....</i>	185
Comparison of Variants of BLAST	
<i>Harpreet Kaur, Amandeep Singh, and Pardeep Singh.....</i>	190

An Analytical Process for Screening Susceptibility Genes of Type 2 Diabetes Mellitus Using Pooled DNA Microarray Data	
<i>Tanaporn Uengwetwanit, Asawin Meechai, Wallaya Jongjaroenprasert, Boonsong Ongphiphadhanakul, Jarukit Lertbantanawong, and Jonathan H. Chan.....</i>	195

A Hybrid Population based ACO Algorithm for Protein Folding	
<i>Torsten Thalheim, Daniel Merkle, and Martin Middendorf.....</i>	200

The 2008 IAENG International Conference on Computer Science

A Novel Fault-Tolerant Multi-EPON System with Sharing Protection through Bridge ONUs	
---	--

<i>I-Shyan Hwang, Zen-Der Shyu, and Liang-Yu Ke.....</i>	206
--	-----

An Extended Shortest Path Problem with Switch Cost Between Arcs	
<i>Xiaolong Ma, and Jie Zhou.....</i>	212

Real-Time Distribution System Based on Multi-Agent	
<i>Zheng-gang Dan, Lin-ning Cai, and Li Zheng.....</i>	218

A Sub-dimension Based Probabilistic Neural Network for Occlusion Classification	
<i>Yi Wang, Benson S. Y. Lam, and Hong Yan.....</i>	222

Three-player Hackenbush played on strings is NP-complete	
<i>Alessandro Cincotti.....</i>	226

FPGA Implementation of the Ternary Pulse Compression Sequences	
<i>N. Balaji, M. Srinivasa rao, K. Subba Rao, S. P. Singh, and N. Madhusudhana Reddy.....</i>	231

GCUCE: Grid Computing for Ubiquitous Computing Environment	
<i>Dong-Bum Seo, Tae-Dong Lee, and Chang-Sung Jeong.....</i>	236

Feasibility Study of Effective Remote I/O Using a Parallel NetCDF Interface in a Long-Latency Network	
<i>Yuichi Tsujita</i>	242
High Performance and Low Leakage Design Using Cell Replacement and Hybrid Vt Standard Cell Libraries	
<i>Liang-Ying Lu, Kuang-Yao Chen, and Tsung-Yi Wu</i>	248
A Scalable Index Mechanism for High-Dimensional Data in Cluster File Systems	
<i>Kyu-Woong Lee, Hun-Soon Lee, Mi-Young Lee, and Myung-Joon Kim</i>	253
Automatic Closed-Caption Alignment Using Pronunciation of Speech Recognition Transcripts for Public Relations TV Program	
<i>Shinya Takahashi, Tsuyoshi Morimoto, and Toshiyuki Nishimoto</i>	259
Modeling Intelligent Transport System using OPAT: A Language To Transform Multi Agent System In Object Oriented Notation	
<i>Manuj Darbari, Bhaskar Karn, and Hasan Ahmad</i>	264
Policy Based Danger Management in Artificial Immune System Inspired Secure Routing in Wireless Mesh Networks	
<i>Mahira Atham Lebbe (Mahira M Mowjoon), Johnson I Agbinya, and Zenon Chaczko</i>	268
Information Security based on Soft Computing Techniques	
<i>Witaya Siripanwattana, and Surat Srinoy</i>	271
Diphone-Based Concatenative Speech Synthesis System for Mongolian	
<i>Munkhtuya Davaatsagaan, and Kuldip K. Paliwal</i>	276
Trends and Directions in Trusted Computing: Models, Architectures and Technologies	
<i>Muhammad Amin, Shabaz Khan, Tamleek Ali, and Saleem Gul</i>	280
A Linear-Time Algorithm for the Terminal Path Cover Problem in Block Graphs	
<i>Ruo-Wei Hung</i>	286

A Comprehensive Analysis of MAC Enhancements for Leveraging Distributed MAC	
<i>Shahbaz khan, Muhammad Amin, Muhammad Nauman, and Tamleek Ali.....</i>	293
A Novel Argument to Use 8-BIT Media Processor for Low Power VLSI Design	
<i>P. Karthigai Kumar, K. Baskaran, and C. Praveen Babu.....</i>	301
A Semantics of Action Related Concepts in ODP Enterprise Language	
<i>Mohamed Bouhdadi, El Maati Chabbar, and Youssef Balouki.....</i>	307
Enhanced N+1 Parity Scheme combined with Message Logging	
<i>Ch. D. V. Subba Rao, and M. M. Naidu.....</i>	312
Designing for Human - Automation Interaction: Abstraction - Sophistication Analysis for UAV Control	
<i>Matthijs H. J. Amelink, Max Mulder, and M. M. van Paassen.....</i>	318
Foundations of Interval Computation	
<i>Trong Wu.....</i>	324
Perspex Machine XI: Topology of the Transreal Numbers	
<i>James A. D. W. Anderson.....</i>	330
Lifting-based VLSI Architectures for Two-Dimensional Discrete Wavelet Transform for Effective Image Compression	
<i>Ibrahim Saeed, and Herman Agustiawan.....</i>	339
Unsupervised Classification for Ancient Manuscript Analysis	
<i>Tieying Lu, Alexandra Psarrou, Aaron Licata, Vassilis Konstantinou, and Vassiliki Kokla.....</i>	348
MKBOOL: A Multi-Completion System for Boolean Constrained Reduction Orders	
<i>Haruhiko Sato, and Masahito Kurihara.....</i>	354
A Multi Agent based Architecture for Data Provenance in Semantic Grid	
<i>Syed Imran Jami, and Zubair Ahmed Shaikh.....</i>	360

A Decision Support System for Agriculture Using Natural Language Processing (ADSS)	
<i>J. R. Prasad, R. S. Prasad, and U. V. Kulkarni.....</i>	365
Parallelization Of Traveling Salesman Problem Using Rocks Cluster	
<i>Izzatdin Abdul Aziz, Low Tan Jung, and Mazlina Mehat.....</i>	370
A Fast Input Method for Tibetan Based on Word in Unicode	
<i>Weilan Wang, and Lingwang Kun.....</i>	374
Scenario Recognition based on Collaborative Attack Modeling in Intrusion Detection	
<i>Xuejiao Liu, Debao Xiao, Ting Gu, and Hui Xu.....</i>	378
Research and Analysis on the Reconfigurable System	
<i>LIU Guangzhong, and XU Xiao.....</i>	383
Hand Gesture Recognition: A Comparative Study	
<i>Prateem Chakraborty, Prashant Sarawgi, Ankit Mehrotra, Gaurav Agarwal, and Ratika Pradhan.....</i>	388
ConFra: A Context Aware Human Machine Interface Framework for In-vehicle Infotainment Applications	
<i>Hemant Sharma, Roger Kuvedu-Libla, and A. K. Ramani.....</i>	394
Semantics of Null Values in Subqueries	
<i>Narongrit Waraporn, and Kriengkrai Porkaew.....</i>	400
An Online Evolvable Chebyshev Filter Based on Immune Genetic Algorithm	
<i>Wei Zhang, Yuanxiang Li, and Nian Liu.....</i>	406
SystemCFLtlm: Motivation and Development	
<i>K. L. Man, M. Mercaldi, F. Garberoglio, A. Trischitta, H. Y. Lai, and C. M. Ho.....</i>	411
On the Security of an Efficient ID-based Partially Blind Signature Scheme	
<i>Yuh-Min Tseng, Tsu-Yang Wu, and Jui-Di Wu.....</i>	417

Fast Wavelet-based Macro-block Selection Algorithm for H.264 Video Codec	
<i>Shi-Huang Chen, Chung-Hsien Chang, and Shih-Yin Yu.....</i>	421

The 2008 IAENG International Conference on Data Mining and Applications

DTFIM: Distributed Trie-based Frequent Itemset Mining	
<i>E. Ansari, G.H. Dastghaibifard, and M. Keshtkaran.....</i>	427
Sequential Fixed-width Confidence Bands for Kernel Regression Estimation	
<i>L. S. Dharmasena, B. M. de Silva, and P. Zeephongsekul.....</i>	432
New Distance Lower Bounds for Efficient Proximity Searching in Metric Spaces	
<i>Tao Ban, and Youki Kadobayashi.....</i>	437
Confidence-based Concept Discovery in Multi-Relational Data Mining	
<i>Yusuf Kavurucu, Pinar Senkul, and Ismail Hakki Toroslu.....</i>	446
Network Anomaly Detection Using One Class Support Vector Machine	
<i>Rui Zhang, Shaoyan Zhang, Yang Lan, and Jianmin Jiang.....</i>	452
The Role of Parts-of-Speech in Feature Selection	
<i>Stephanie Chua.....</i>	457
Gaining Insights to the Tea Industry of Sri Lanka using Data Mining	
<i>H. C. Fernando, W. M. R Tissera, and R. I. Athauda.....</i>	462
Effects of Distance between Classes and Training Datasets Size to the Performance of XCS: Case of Imbalance Datasets	
<i>Thach H. Nguyen, Sombut Foitong, Sornchai Udomthanapong, and Ouen Pinngern.....</i>	468
Privacy Preserving Data Mining Using Cryptographic Role Based Access Control Approach	

<i>Lalanthika Vasudevan, S.E. Deepa Sukanya, and N. Aarthi.....</i>	474
Parallel Mining of Maximal Frequent Itemsets in PC Clusters	
<i>Vong Chan Veng Terry.....</i>	480
An Algorithm For Mining Fuzzy Association Rules	
<i>Reza Sheibani, and Amir Ebrahimzadeh.....</i>	486
Ensemble with Neighbor Rules Voting	
<i>Itt Romneeyangkurn, and Sukree Sinthupinyo.....</i>	491
Economical Structure for Multi-feature Music Indexing	
<i>Yu-Lung Lo, and Chun-Hsiung Wang.....</i>	497
Impact of Feature Selection Methods in Hierarchical Clustering Technique: A Review	
<i>J. R. Prasad, R. S. Prasad, and U. V. Kulkarni.....</i>	502
Classification Using Unstructured Rules and Ant Colony Optimization	
<i>Negar Zakeri Nejad, Amir H. Bakhtiary, and Morteza Analoui.....</i>	506
A Relative Deviation Detection for Time Series Data Based on Equality	
<i>Ching-an Hsiao, Hanxiong Chen, Kazutaka Furuse, and Nobuo Ohbo.....</i>	511
A Hybrid Clustering Based Filtering Approach with Efficient Sequencing	
<i>Namita Mittal, M. C. Govil, Richi Nayak, Rajesh Kumar Himanshu Gothwal, and Dwipayana Das.....</i>	517
The Method of Different-type Data Fusion for Nuclear Monitoring	
<i>SHEN Qiang, HUANG Li, and LI Shi-yi.....</i>	521
Classifying Student Academic Performance: A Hybrid Approach	
<i>Ahmad I. Z. Abidin, Ili A. Setu, S. P. Yong, O. M. Foong, and Jale Ahmad.....</i>	524
Continuation-ratio Model for Categorical Data: A Gibbs Sampling Approach	
<i>Wan Kai Pang.....</i>	528
Genetic Algorithm and Simulated Annealing based Approaches to Categorical Data Clustering	
<i>Indrajit Saha, and Anirban Mukhopadhyay.....</i>	534

Evaluation Criteria of Feature Splits for Co-Training	
<i>Masahiro Terabe, and Kazuo Hashimoto.....</i>	540
Discovery of Multi Dimensional Quantitative Closed Association Rules by Attributes Range Method	
<i>Preetham Kumar, and Ananthanarayana V S.....</i>	545
Clinical Data Mining - An Approach for Identification of Refractive Errors	
<i>D. V. Chandra Shekar, and V. Sessa Srinivas.....</i>	551
Adaptive Fuzzy Apriori - Tree Search Algorithm for Hybrid Information System	
<i>S. Bhuvaneswari, and K. Meena.....</i>	556
Classifying and Identifying of Threats in E-mails - Using Data Mining Techniques	
<i>D. V. Chandra Shekar, and S. Sagar Imambi.....</i>	562
Impact Analysis of Phishing Announcements on Market Value of Hong Kong Banks	
<i>Alvin C. M. Leung, and Indranil Bose.....</i>	567
Moving Vehicle Identification using Background Registration Technique for Traffic Surveillance	
<i>Vibha L, Venkatesha M, Prasanth G Rao, Suhas N, P Deepa Shenoy, Venugopal K R, and L M Patnaik.....</i>	572
A Threshold Free Implication Rule Mining	
<i>Alex Tze Hiang Sim, Maria Indrawan, and Bala Srinivasan.....</i>	578
Similarity and Pattern Recognition	
<i>Chun-Hung Tzeng.....</i>	584
Mining Frequent Sequences Using Itemset-Based Extension	
<i>Zhixin Ma, Yusheng Xu, Tharam S. Dillon, and Chen Xiaoyun.....</i>	591

The 2008 IAENG International Conference on Imaging Engineering

Fuzzy Rule-based Boundary Extraction of Plaque in Intravascular Ultrasound Image	
<i>Ryosuke Kubota, Shohei Ichiyama, Noriaki Suetake, Eiji Uchino, Genta Hashimoto, Takafumi Hiro, and Masunori Matsuzaki.....</i>	597
Convolutional Neural Networks for Eye Detection in Remote Gaze Estimation Systems	
<i>Jerry Chi Ling Lam, and Moshe Eizenman.....</i>	601
A Modified JPEG-LS Image Compression Scheme for Low Bit-Rate Application	
<i>Chien-Wen Chen, Shi-Huang Chen, Tsung-Ching Lin, and Trieu-Kien Truong.....</i>	607
Removal of Salt-and Pepper Noise in Images: A New Decision-Based Algorithm	
<i>Madhu S. Nair, K. Revathy, and Rao Tatavarti.....</i>	611
Extracting Structural Image Contents	
<i>Pornchai Mongkolnam, Thanee Dechsakulthorn, and Chakarida Nukoolkit.....</i>	617
Best Wavelength Selection for Gabor Wavelet using GA in EBGW Algorithm	
<i>Mohamad Hoseyn Sigari, and Mahmood Fathy.....</i>	623
A New Hybrid Multitoning Based on the Direct Binary Search	
<i>Xia Zhuge, Yuki Hirano, and Koji Nakano.....</i>	627
Corner Detection using Difference Chain Code as Curvature	
<i>Neeta Nain, Vijay Laxmi, Bhavitavya Bhadviya, and Nemi Chand Singh.....</i>	633
Decomposing a Polygonal Boundary as a List of Line Segments	
<i>Neeta Nain, Vijay Laxmi, Bhavitavya Bhadviya, Nemi Chand Singh, and Ashwini Sharma.....</i>	639
A Novel Approach for Area Computation of Convex Shapes	
<i>Neeta Nain, Vijay Laxmi, Bhavitavya Bhadviya, and Nemi Chand Singh...</i>	643

ThangKa Image inpainting Using Adjacent Information of Broken Area <i>Huaming Liu, Weilan Wang, and Hui Xie.....</i>	646
Automatic Detection of Change in Address Blocks for Reply Forms Processing <i>K R Karthick, S Marshall, and A J Gray.....</i>	650
Face Detection Method Based on Color Barycenter Hexagon Model <i>Qieshi Zhang, Jun Zhang, and Sei-ichiro Kamata.....</i>	655
Digital Watermarking Scheme with Visual Cryptography <i>Ching-Sheng Hsu, and Shu-Fen Tu.....</i>	659
AR Marker Capacity Increasing for Kindergarten English Learning <i>Min-Chai Hsieh, and Jiann-Shu Lee.....</i>	663
Color Barycenter Hexagon Model Based Road Sign Detection <i>Qieshi Zhang, Sei-ichiro Kamata, and Jun Zhang.....</i>	667
ELHWT: Efficient Lowest to Highest Wavelet Tree for Image Processing and Compression <i>Mohammad Hossein Eslami, and Mohsen Yakhshi Tafti.....</i>	671
Scene Classification Using Efficient Low-level Feature Selection <i>Chu-Hui Lee, and Chi-Hung Hsu.....</i>	675
Edge based Real-Time Weed Recognition System for Selective Herbicides <i>Imran Ahmed, Awais Adnan, Muhammad Islam, and Salim Gul.....</i>	680
A Treatise on Mathematical Color Inpainting of Japanese Old Statues <i>Toshio Sakata, Kazuki Takenouchi, Kensuke Nouno, Kazumitsu Maehara, and Takahiko Horiuchi.....</i>	685
Semantic Space Segmentation for Content-Based Image Retrieval using SVM Decision Boundary and Principal Axis Analysis <i>Tian-Luu Wu, and Ji-Hwei Horng.....</i>	691
Software for Visualizing Volume Rendering of Large Datasets <i>Navid Fallah, and Ali Eydgahi.....</i>	697

Printed and Handwritten Tamil Characters Recognition Using Fuzzy Technique	
<i>R. M. Suresh</i>	702
Image Noise Cancellation Using Linear Matrix Inequality and Cellular Neural Network	
<i>Cheng-Chih Hou, Cian-Pin Wei, Shih-Chun Huang, and Te-Jen Su</i>	707
An Image-encoded Mach-Zehnder Joint Transform Correlator for Polychromatic Pattern Recognition with Multi-level Quantized Reference Functions	
<i>Chungcheng Lee, Chulung Chen, Chunmin Wang, and Chiehpo Chang</i>	712
Real-time Background Modeling/Subtraction using Two-Layer Codebook Model	
<i>Mohamad Hoseyn Sigari, and Mahmood Fathy</i>	717
Face Detector with Oriented Multiple Templates	
<i>Yea-Shuan Huang, and Wei-Cheng Liu</i>	721
Image Coding with Adaptive Wavelet Packet Trees	
<i>Hsi-Chin Hsin, and Tze-Yun Sung</i>	727
A Content-Adaptive Method for Fractional Image Rescaling Based On Constrained Seam Carving	
<i>Yijun Xiao, J. Paul Siebert, and W. Paul Cockshott</i>	732

The 2008 IAENG International Conference on Internet Computing and Web Services

Analysis of Appropriate Category Level of Web Directory for Cross-Language Information Retrieval	
<i>Fuminori Kimura, Akira Maeda, Kenji Hatano, Jun Miyazaki, and Shunsuke Uemura</i>	738
Context-aware Computing: a Survey Preparing a Generalized Approach	
<i>Robert Schmohl, and Uwe Baumgarten</i>	744

Two Levels of Prediction Model for User' s Browsing Behavior	
<i>Chu-Hui Lee, and Yu-Hsiang Fu.....</i>	751
Using Ubiquitous Tools And Web Services For IT Education	
<i>Wai K. Law.....</i>	757
Personalized RSS Search Service Using RSS Characteristics and User Context	
<i>Haesung Lee, and Joonhee Kwon.....</i>	761
OSIAN: Ontology based Service Index Annotator	
<i>Viji Gopal, and N. S. Gowri Ganesh.....</i>	766
The Blog-article Recommendation System(BARS)	
<i>Li-Hua Li, Fu-Ming Lee, and Shang-Chi Chan.....</i>	771
Study of Reliable Data Communication in Wireless Sensor Networks	
<i>Purushotham BV, Prakasha S, and K Ganesan.....</i>	777
The Mobile Devices and its Mobile Learning Usage Analysis	
<i>S. M. Jacob, and B. Issac.....</i>	782
Order Monitoring in E-Business Transactions by Software Agents	
<i>F. Bodendorf, and R. Zimmermann.....</i>	788
Acquiring Trustworthy Knowledge for Conversation Agents based on a Web Knowledge Trust Model	
<i>Ong Sing Goh, and Chun Che Fung.....</i>	794
Trusted e-Commerce User Agent Based on USB Key	
<i>Dawei Zhang, and Peng Hu.....</i>	800
Research on Digital Signature in Electronic Commerce	
<i>Hongjie Zhu, and Daxing Li.....</i>	807
Data Collaborative Work Flow Model for Information Integration with the support of Web Services	
<i>J. K Zhang, K Liu, Y. Tang, M. C So, L. S. Ke, and A. L Mao.....</i>	810

Measuring Critical thinking in Problem Solving through Online Discussion Forums in First Year University Mathematics	
<i>S. M. Jacob, and H. K. Sam.....</i>	816
On-Line Data Security Implementation by Random Sequence	
<i>Xu Huang, and Dharmendra Sharma.....</i>	822
SQuaRE based Web Services Quality Model	
<i>Witold Abramowicz, Rados aw Hofman, Witold Suryn, and Dominik Zyskowski.....</i>	827
A Study on Enterprises Cluster Oriented Collaborative Commerce System Construction	
<i>ZENG Xiao-qing, XIAO Hai-yan, and LIU Ning.....</i>	836
Group Partitioning and Merging Mobility Model for Mobile Ad hoc Networks	
<i>Sacko Diouba, Wang Furong, and Huang Benxiong.....</i>	840
E-Learning Revolution: Status of Educational Programs in India	
<i>Sanjay Rajpal, Sanjay Singh, Awadhesh Bhardwaj, and Alok Mittal....</i>	846
A Software Agent for Report Development	
<i>Dulce Magalhães de Sá, and Luis Joyanes Aguilar.....</i>	852
Empirical Modelling of the Mobile VoIP Demand	
<i>Hannu T. Verkasalo.....</i>	858
Semantic Web Application in Requirement Tracing for Product Design Information	
<i>Tanasaran Trichachawanwong, Ao Gao, Xili Chen, and Tomohiro Murata.</i>	864
Multicriteria Analysis for Evaluating and Selecting E-Markets in Business-to-Business E-Business	
<i>Hepu Deng, and Alemayehu Molla.....</i>	870

The 2008 IAENG International Conference on Software Engineering

Integrating Risk Management with Software Development: State of Practice	
<i>Jaana Nyfjord, and Mira Kajko-Mattsson.....</i>	878
An Aspect-Oriented Approach to Handling Crosscutting Concerns in Activity Modeling	
<i>Jing Zhang, Yan Liu, Michael Jiang, and John Strassner.....</i>	885
Method of Generating Operation Map from Source Programs for Operation Learning	
<i>Hajime Iwata, Daisuke Kuroiwa, Junko Shirogane, and Yoshiaki Fukazawa.....</i>	891
A Framework for Classifying and Comparing Graphical Object Oriented Modeling Languages	
<i>Ali Kamandi, and Jafar Habibi.....</i>	897
A Case Study: Kalman & Alpha-Beta Computation under High Correlation	
<i>D. M. Akbar Hussain, David Hicks, Daniel Ortiz-Arroyo, Shaiq A. Haq, and Zaki Ahmed.....</i>	903
Towards UML Profile for Human Machine Interface Applications of In-vehicle Infotainment Platforms	
<i>Hemant Sharma, Roger Kuvedu-Libla, and A. K. Ramani.....</i>	909
Success and Failure of Software Development: Practitioners' Perspective	
<i>S. N. Geethalakshmi, and A. Shanmugam.....</i>	915
Running COLA on Embedded Systems	
<i>Wolfgang Haberl, Michael Tautschnig, and Uwe Baumgarten.....</i>	922
Framework and Architectural Style Metrics for Component Based Software Engineering	
<i>R. Thirumalai Selvi, N. V. Balasubramanian, and George T. Manohar...</i>	929

Fault Tolerance Through Automated Diversity in the Management of Distributed Systems	
<i>Jorg PreiBinger</i>	933
Defects Detection in Imperative Language and C# Applications - Towards Evaluation Approach	
<i>S. Sarala</i>	940
An XML Definition Language to Support Use Case-Based Requirements Engineering	
<i>M. Golbaz, A. Hasheminasab, and N. Daneshpour</i>	945
Cost Estimation Model For Reuse Based Software Products	
<i>Jasmine K. S, and R. Vasantha</i>	951
Estimation of Agile Functionality in Software Development	
<i>Bashir Nasr-Azadani, and Reza MohammadDoost</i>	955
Self-organizing Business Networks, SOA and Software Maintenance	
<i>Francesco Rago</i>	958
Using User Sessions for Test Case Generation and Execution	
<i>Izzat Alsmadi, and Kenneth Magel</i>	963
A Software Reliability Estimation Tool Using Artificial Immune Recognition System	
<i>S. Chitra M. E., and M. Rajaram</i>	967
A Model of Predelivery Problem Management	
<i>Mira Kajko-Mattsson, and Eirini Tsotra</i>	976
Performance Analysis of Proprietary and Non-Proprietary Software	
<i>R. Thirumalai Selvi, R. Meenakshi, N. V. Balasubramanian, and George T. Manohar</i>	982
Security Requirements Engineering; State of the Art and Research Challenges	
<i>M. A. Hadavi, V. S. Hamishagi, and H. M. Sangchi</i>	985

md-Matrix: Mobile Application Development Tool	
<i>Norshuhada Shiratuddin, and Siti Mahfuzah Sarif.....</i>	991
On Languages of Channels for Communicating ODP Engineering Objects	
<i>El Maati Chabbar, and Mohamed Bouhdadi.....</i>	996
Detecting Bad Smells in Object Oriented Design Using Design Change Propagation Probability Matrix	
<i>A. Ananda Rao, and K Narendar Reddy.....</i>	1001
Method Assisted Requirements Elicitation for Context Aware Computing for the Field Force	
<i>Ahmad Hassan Afridi, and Saleem Gul.....</i>	1008
A UML Profile for Automated Behavior Processes in ODP Enterprise Language	
<i>Youssef Balouki, Mohamed Bouhdadi, and El maati Chabbar.....</i>	1014
A Template for Communicating Information about Requirements and their Realization	
<i>Mira Kajko-Mattsson, and Jaana Nyfjord.....</i>	1020
Does eXtreme Programming support Collaborative Creativity?	
<i>Broderick Crawford, and Claudio Leon de la Barra.....</i>	1026
Modeling and Verification of Marine Equipment Systems Using a Model Checker	
<i>Shunsuke YAO, Hiroaki AWANO, Yasushi HIRAOKA, and Kazuko TAKAHASHI.</i>	1033
